

Can you hear all the angels sing or is it just the hell we're in?
Drive through fire, meet the demons, wait for the night, when blood will run.

Diamond Skull are a heavy stoner rock trio, born 2015 in Vienna, Austria, crafting a sound that is equally straight forward, dark and hypnotic.

Hard edged bluesy riffs with a mesmerizing groove, and flat out ass-kicking swagger. Join in on the insomnia of rock n'roll paradise, you don't want to wake to a reality void of Diamond Skull..

(Bucky Brown, Doom Charts / The Ripple Effect)
